- ### Goals of ECHD 430
1. Universal Design for Learning principles and application in curriculum development, instruction, and assessment.
 2. Integrating technology and early learning standards into infant/toddler and preschool curriculum.
 3. Augmentative or Adaptive Communication (AAC) systems to enhance children's vocabulary, participation in the curriculum, conversational and social interaction skills.
 4. Integrate technology into math, science, and social studies activities with a variety of technology tools such as digital cameras, smart boards, document cameras, and others.

Goals, con't

- 5. Create curriculum activities using authoring software, to address diverse array of students needs within the classroom.
- 6. Use curriculum-based assessment procedures to determine appropriate input methods, technologies, curriculum activities, and adaptations for a child.
- 7. Read research the efficacy of technology for teaching and learning for early childhood students with and without identified special needs.
- 8. Compare and contrast adaptive/assistive and universally designed use of technologies and how to use them to customize activities for children.
- 9. Demonstrate how to use digital photos to create technology portfolios that document children's progress.
